

Welcome

Nestled in the heart of the Ozark Mountains, we proudly offer pristine Lake Front and Lake View properties you can only fully appreciate in person. Our properties are secluded, yet only 20 minutes from the tourism mecca of Eureka Springs and a mere 40 minutes from the North West Arkansas hub of Fayetteville, Springdale, Rogers and Bentonville.

We specialize in nature, views, bluffs, clear water and quiet, except for the occasional scream of a native red tail hawk or gobble of a wild tom turkey. Our properties offer all of these rare conditions, which are difficult to find this day and time. We are proud to offer you the opportunity to be a part of this unique life on beautiful Beaver Lake.

We offer scenic wooded lots harboring wet weather streams and valley settings with morning fog hanging above. Waves lapping the shoreline with mountain top sunsets, sunrises and big mountain skies at night abound for your enjoyment. Lake and river lovers will enjoy Beaver Lakes trophy trout and striper fisheries that are known nationwide. The clarity of the mountain water offers unmatched quality for inland scuba diving and water sports. Come and see for yourself.

Give us a call or stop by; we will be glad to show you how our properties can lead to a quality change in your lives. The diversity of our five developments is affordable for any budget. We are proud to be able to offer help in finding the perfect lot to build your dream home. We can also assist you in finding just the right contractor to help make your building a quality experience. We will be glad to help you with local financing. All prices are subject to change.
